Infrastructure

Turkdonmez

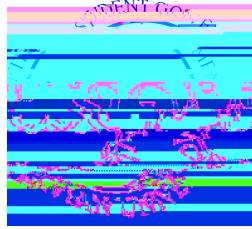

- Would like for us to talk about the solar panel charging unit.
  - Noticed that the solar panel charging unit by Sally and PPHAC isn't being used much, and the student body sees it as a benefit
  - Team up with ECO, Sustainability, and the astronomy class to get it used more often.
    - They want us to work as a team to see where it can be strategically placed.
    - **Example: if we ever planned on placing another solar panel charging unit somewhere else on campus, have the astronomy class determine if it's in a good location.**
